

# SOUTH BAY WOODWORKERS' NEWS

Volume 35, Issue 1

January 2025

## President's Column

By Jay Perrine

Greetings SBWW!

Start off a great new year for SBWW while honoring the end of 2024 with pizza and salad. Did Santa bring you a CNC or close? - tell us over pizza.

After all the news of fires destroying homes hopefully our group can enjoy the remodeling and home building going on with our own members - Bob has gotten final approval on his new house after what 5 years, and Steve is building (or has built by now) his kitchen and bathroom cabinetry with his 4x8 CNC which will hopefully provide a nice presentation at a club meeting soon. I just got solar voltaic added to my house but it didn't involve any woodworking on my part but reinforcing my own nest.

We need to discuss finding a replacement for the Vice President—or, possibly, having an Assistant VP who can become familiar, help arrange the meeting responsibility and step in when needed and give us some continuity. Let's discuss at the January meeting over pizza!  
Jay

## Meeting Tuesday January 28 7pm

Pizza Party! Pizza and beverages will be provided by the club. Tracie is providing looping slide show of all the projects that have been shared in the past year.

## Meeting Location

Saratoga Federated Church  
Postal Annex Building  
14376 Saratoga Ave., Saratoga, CA

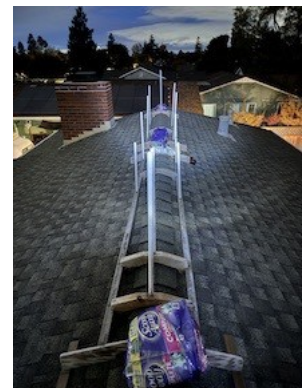

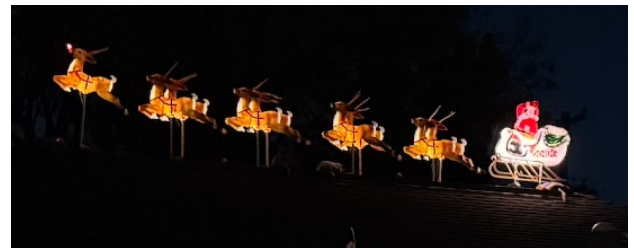

## Map and directions:

## November Meeting in Review

Members in the group shared Holiday related projects and other things they have been working on.

Tracie Johnson shared the innovative saddle structure she designed to install Santa, Sleigh and the nine reindeer on the roof without nails or screws.

**Bob Konigsberg** brought in an end table with interesting curves and used OSB Plywood in a decorative way.

**Greg Spencer** showing his box featuring Zebra wood.

**Mateo McCullough** with a saw that he made from patent plaques that were donated to the club last year. The blade is made from the metal portion of the plaque, the handle from the wood portion!

**Jim Bender** shared updates on building window frames for the green house at Redwood High School.

Redwood High School Garbage enclosure

**Jim Bender** with students on boat-building apprenticeship

## 2025 Calendar/Programs

Any additions or changes please contact **Steve Kelem** until **Tracie Johnson** returns.
